"Saved Her Life."

MRS. JOHN WALLET, of Jefferson, Wis., than whom none is more highly esteemed or widely known, writes. "In 1[illegible]0 I had a severe attack of LaGrippe and at the end of four months, in spite of all physicians, friends and good nursing could do, my lungs heart and nervous system were so completely wrecked, my life was despaired of, my friends giving me up. I could only sleep by the use of opiates. My lungs and heart pained me terribly and my cough was most aggravating. I could not lie in one position but a short time and not on my left side at all. My husband brought me Dr. Miles' Nervine and Heart Cure and I began taking them. When I had taken a half bottle of each I was much better and continuing persistently I took about a dozen bottles and I was completely restored to health to the surprise of all."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address,

HIS HEALTH IS GOOD

Surgeon Page, Late of the Olympia, Talks of Dewey's Condition.

NOT A PHYSICAL WRECK

No Appreciable Change in His Appearance, Weight or General Condition Since Going to Manila—Has Not Had a Prescription In a Year. Carries Responsibility Lightly.

Washington, May 25.—Surgeon J. E. Page, of Admiral Dewey's flagship, the Olympia, has arrived here on leave. He came ahead of the Olympia to avoid long delays of the sail via the Suez canal. Surgeon Page has been on the flagship ever since Dewey took command, seeing him daily and having general charge of medical affairs, so that he is in a position to give an intelligent view of the admiral's health and general condition. He said:

"Admiral Dewey is in no sense a sick man, but is as well as any man could be after spending a year in the tropics. I was on the Olympia at the time he came aboard, and from that time to the present I do not believe there has been any appreciable change in his appearance, weight or general condition. Any one who thinks he is a physical wreck should hear the admiral on the quarterdeck when he gets aroused. He is the gentlest man living, and yet he expects every man to do his exact duty, and when there is any shortcoming the admiral will be heard from in no feeble or sickly manner.

"Of course every one in the fleet has suffered in health more or less during the last year, owing to the terrific and long sustained heat and the enervating climate. It takes all the life out of a strong man and undoes his energy and ambition. In that way Dewey suffered with all the rest of us. It was particularly arduous during blockade duty, when for long stretches no man could get ashore."

Surgeon Page was asked if Admiral Dewey's responsibilities had not weighed heavily on him.

"I think not," he answered, "and I believe it will be found that he has just as much nerve as the morning he fought the battle of Manila bay. He is a man who carries responsibility lightly, and does not let it break him down. On the morning of the battle he was perfectly cool, and only once throughout the action did he show any signs of anxiety. That was when the head gunner reported that our ammunition was running short. This was about the time when we pulled off for breakfast, and it had a rather depressing effect. But it was quickly offset when the officer of the deck reported that the Reina Christina and Castalia were afire. That was the turning point, and the admiral had no anxiety after that."

Asked if he had prescribed for Dewey of late, Surgeon Page said:

"No; he has no need for prescriptions. During the last year he has not once asked for a prescription or taken medical advice, except in a casual way. If he wants anything he sends down to the ship's apothecary and gets it. His habits are so regular that he needs little or no medicine. His smoking and drinking are in perfect moderation. He eats well and sleeps well, and it is one of the recognized offences on board ship to tramp heavily over the admiral's cabin after he has retired.

"It has needed a pretty calm man at the head of affairs," said Surgeon Page, when asked as to the reports of friction with the German naval officers. "I know nothing of any differences, but we all felt that much reliance was to be placed on the admiral's tact and conservatism as a means of avoiding any possible difference. Throughout the fleet he was admired universally, not only as a naval commander, but for his statesmanship and discretion."

When a man dies they put a tombstone over him and carve compliments on it. But they don't tell what killed him. If they did you could go into any cemetery and find on one stone in every six the words—"consumption," "pneumonia," "diseased lungs." And if the truth were all told most of them would say also—"due to carelessness." More men die of consumption than are killed in battle. Consumption is more deadly than rattlesnakes, and yet men run from the snake, and invite consumption.

The time to cure consumption is before it starts. A "little cough" is easy to cure. Weak lungs may be made strong before disease gets in.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

Is the one medicine that is successful above all others in the treatment of throat, bronchial and lung diseases. It is a general cleanser and tonic for the weak stomach and for the whole system but it also acts specifically on the throat and lungs. It makes rich, red blood, builds up flesh and strength and renews the vigor of the whole body.

Sold everywhere by dealers in medicine. Be sure you get the *genuine*. Don't take a substitute.

Mrs. M. Hartrick, of Demster, Oswego Co., N. Y., writes: "I have lost two daughters in less than five years with consumption and scrofula. My eldest son was taken, two or three years ago, with hemorrhage from the lungs. It troubled him for over a year. He took Dr. Pierce's Golden Medical Discovery and has not had a bleeding from the lungs in over a year. Your medicine certainly saved his life."

THE RIENA MERCEDES.

Norfolk People Apprehensive of Fever From the Spanish Cruiser.

Washington, May 25.—The navy department is making ready to receive the captured and raised Spanish cruiser Reina Mercedes at the Norfolk navyyard, if it can succeed in allaying the apprehensions of the people of Norfolk as to the safety of the movement. Surgeon General Van Reypen has given the matter his personal attention, and, recalling the fact that the Mercedes has been under water since early last July; that there never was fever aboard of her, and, finally, that there is no fever at Santiago, whence she came, he recommended to Assistant Secretary Allen, who is directly in charge of the repairs of ships, that the original plan be carried out and that the Mercedes be brought to the Norfolk navyyard. Surgeon General Wyman of the marine hospital service was first consulted by Surgeon General Van Reypen, inasmuch as he is in charge of the national quarantine service at Norfolk, and he declared that there would be no danger in adopting this course, particularly as he would undertake to have the Mercedes thoroughly disinfected and cleansed.

The Peace Jubilee.

Washington, May 25.—The feature of the second day of the national peace jubilee celebration in this city was the civic parade yesterday afternoon. It consisted of all the fraternal, civil and trade organizations of the city, together with a long procession of floats. The parade passed through the court of honor, where President McKinley, his cabinet and a distinguished company reviewed it from a stand in front of the white house grounds. There was much merriment and enthusiasm, and the parade was a distinct success.

CHOLERA SCOURGE

An Awful Death Rate at Karachi, India.

Bombay, May 25.—Cholera is raging in Karachi, the principal seaport town of Singe. Two hundred and thirty-two new cases were reported yesterday and 208 deaths for the day. The official returns show a total of 1,197 cases and 1,099 deaths since the beginning of the outbreak.

Karachi, or Kurrachoo, is on an inlet of the Indian ocean, 18 miles from the west branch of the Indus. The town was taken by the British in 1839 and was retained as a military post. According to the census of 1891 its population is about 100,000. A railway extends from Karachi to Hyderabad. Of late years the town has been rebuilt and greatly improved, and is now one of the chief seaports of India.

SCHLEY MOVES ON

Leaves Omaha For Denver and Salt Lake Over the Burlington.

Omaha, May 25.—Rear Admiral W. S. Schley's visit to Omaha ended yesterday when, in company with Mrs. Schley and General and Mrs. Manderson, he boarded a Burlington train for a trip to Denver and Salt Lake. When the party arrived at the station an immense crowd was present to catch a last glimpse of the naval hero.

As the train passed the central entrance to the depot the Sixteenth infantry band struck up "The Stars and Stripes Forever." Off came the admiral's hat with a swing, and the boys in blue waved their farewell with that of the admiring throng as the train pulled out.

To Welcome Dewey

Washington, May 25.—Preliminary steps have been taken by the Washington board of trade for a welcome to Admiral Dewey on his return to this city. The district commissioners have been requested to appoint a committee of citizens to take charge of the matter and also to represent the district in all questions pertaining to the reception of the admiral on his return to this country and to the capital. The board also indorsed the movement to present to Admiral Dewey a suitable permanent home in this city.

Madrid, May 20.—The Reforma declares that the minister of finance, Senor Villaverde, who is supported by the entire cabinet, maintains the royal order instructing the Bank of Spain to suspend indefinitely the quarterly drawing of the redeemable 4 per cent debt. The bank owns £15,000,000 out of £61,000,000 of this stock; and the order means that the treasury will gain £2,000,000.

DOINGS AT HAVANA

General Sanchez Notifes Gomez That His Division Will Not Accept the Money.

SHIPS GAILY DECORATED

In Honor of Queen Victoria's Birthday — An American Arrested For Selling Government Property — Havana Merchants Call on Collector Bliss.

Havana, May 25.—Great interest is felt here in shipping circles with regard to the question of coasting flags. The daily papers are eagerly scanned for news from Washington touching the subject.

General Maximo Gomez has received a telegram from General Sanchez in Santiago province, saying: "Division will not accept money." He has replied: "Will use every effort compatible with dignity and honor." The Havana papers consider this answer evasive, and the Cubans generally, especially those belonging to the fighting divisions, which are chiefly westerners, say that most of the soldiers will accept the money as $75 a piece is better than nothing.

Probably there will be a large attendance on the first payment, as well as upon those that follow. A member of the staff of Gomez said yesterday that not more than 20 per cent would refuse when the money was actually in sight.

Havana yesterday was alive with flags in honor of the queen's birthday and all the ships in the harbor were gaily decorated. The banquet last night at the Hotel Inglaterra was attended by 80 representative people and passed off with great enthusiasm. Addresses were made by Governor General Brooke, Major General Ludlow, Senor Frederico Mora, supreme court fiscal; Senor Perfecto, the mayor, and others.

Cox, an American civilian, foreman of department of streets, has been arrested on a charge of selling government property for his personal benefit. One of his assistants has admitted receiving $10 as his share of the proceeds of a sale of lumber that brought $75. Other similar deals are suspected, though there is as yet no confirmatory evidence.

A committee of Havana merchants called upon Collector Bliss to inform him that they would not receive freight under the present system, as it was slow and costly. He explained that the rush of imports and exports, occurring at the same time with the remodeling of the customhouse, rendered any radical change impracticable at present. The merchants asked for 24 hours to consider his reply, and the collector said he would give them five minutes. At the expiration of that time they accepted the situation.

Major General Fitzhugh Lee will deliver the Decoration day address over the remains of those who died and are buried at Camp Columbia. The victims of the Maine disaster will receive appropriate memorial honors in the morning, and the Seventh corps ceremony will take place during the afternoon.

REV. HOLMES' GIFT

Presents the Presbyterian General Assembly With $1,000.

Minneapolis, May 25.—Rev. Meed Holmes of Rockford, Ills., aged and bent, climbed upon the tribune of the Presbyterian general assembly yesterday afternoon and extracted from a worn little pocketbook a draft for $1,000 on the Chemical National bank of New York. Rents were terribly low, he said, and money was hard to get, but for the freedmens' cause he would give that draft provided all stood by their pledges and promises, and the more than $40,000 promised was actually delivered. Then while the assembly applauded loudly the gray beard painfully clambored down. Dr. Charles Herr presented the amended report of the Freedmens' committee as to lynch law outrages in the south. The lurid language of the other day, which caused some excitement, gives place to this harmless paragraph:

"It (the Freedmens) is a cause that appeals to us with particular insistence at this time because of the development of mob spirit in our Christian land. We join heartily with our fellow citizens and fellow Christians of all sections in their horror of those dreadful manifestations and we believe it is an hour for our church to pledge herself afresh, in sacrafice and service to the redemption of the negro from his sufferings and his sins."

He was walking through the hotel corridor last night when he gave a sudden gasp and fell to the marble floor, his head striking heavily. All efforts to revive him were fruitless, and he died in about an hour. The hotel physician thought death was due to apoplexy.

EXILED AT THIRTEEN

Native of Colombia Returning to Claim a Portion of an Estate.

San Francisco, May 25.—Among the passengers of the steamer Australia yesterday, from Honolulu, was A. A. Montano, proprietor of a large dairy in the Manao valley, who is on his way to his old home in the United States of Colombia, after 35 years, to recover an estate left by his father. The story of his early life and his banishment from the country reads like one of Mayne Reid's romances.

Thirty-five years ago Montana was a boy of 18 in Colombia. A rebellion was started and young Montano was engaged to lead the insurgents against a fortress that commanded the capital. He guided them by a secret path at night and then himself crawled through a small hole in the wall, followed by the men, one at a time. At 4 o'clock in the morning the revolutionists, fully armed, descended on the populace in the market place and put to death all the men they could find. Then they left the town. The next day they captured a neighboring city, young Montano again leading them.

The government, however, rallied its forces and defeated the rebels. The ringleaders were shot, but out of consideration for Montano's youth he was taken to the coast and banished. This was in 1864. He then went to Hawaii, where he has lived ever since.

In Colombia he left nine brothers and two sisters. His father's estate was large and was not confiscated, so he returns now to get his share. He carries letters from President Dole showing he is a citizen of Hawaii, and will call at Washington to get papers showing he is an American citizen.

Total, $12,557,655.57.

By the terms of the bills passed $7,956,775.71 is payable during the first year and the remainder, $4,600,870.86 is payable the second year.

DESTITUTION

Prevails In Many Sections Along the Northeast Coast of Newfoundland.

St. John, N. F., May 25.—The northeast coast of this island has been blocked with ice for the last six weeks, the result being that navigation along the coast has been practically impossible. The people in many sections are now destitute of provisions, owing to the inability to replace their supplies, and the commercial operations of almost 80,000 people have been virtually suspended. Fishery outfitting for Labrador and the offshore fishing grounds will be quite out of the question until the ice blockade is raised.

The mail steamer Virginia Lake, which attempted to proceed north, failed to force her way through the floes and was compelled to return to this port. Fishing vessels from St. Johns, bound for Labrador, have to skirt around the south coast of the island and to work out through the straits of Belle Isle.

WIRE FENCE

Manufacturers Meeting In Chicago. Discord Among the Delegates.

Chicago, May 25.—Manufacturers of wire fencing and machines for the manufacture of wire fencing met at the Great Northern hotel yesterday. E. F. Shellabarger of Dekalb, Ills., presided over the meeting. About 30 representatives of as many firms, covering the states of New York, Iowa, Kansas, Nebraska and Illinois were admitted to the conference. From the start the delegates found discord in their meeting. The men who manufactured only the wire did not want to allow the men who manufactured the machines for manufacturing the wire to be taken in their confidence.

Whitby, Ont., May 25.—Howard Elliott, a 15-year-old boy, has been sentenced by Judge McMahon at the assizes to be hanged on Thursday, Aug. 17, for the murder of William Murray of Beaverton. The victim, who was 80 years old, lived alone and was beaten to death with a club. The object was robbery. When sentence was pronounced the prisoner showed the same indifference which has characterized his actions since his arrest.

BALTIMORE SALOONS

Said That Five Hundred Will Quit In the Near Future.

Baltimore, May 25.—Five hundred saloons of Baltimore, it is estimated, will quit the business. Some of them have already closed their doors and others will follow. The cause of the great shutdown is the determination of the Maryland Brewing company, which controls nearly nine-tenths of the output of the city, to abandon the practice of paying for saloon licenses in order to force their product on the market. Last year, on May 17, applications for license filed with the board of liquor license commissioners numbered 2,451. On the same date this year only 2,291 applications have been filed, a falling off of 160. The decrease in applications indicates what the extent of the general shutdown in the saloon business will be, as it is believed that at least one-fifth of those who have already applied will not buy them.

QUEEN'S BIRTHDAY

Banquet Given Last Night at Which Lord Rosebery Presided.

London, May 25.—The birthday banquet given at the hotel Cecil last night in honor of the queen's birthday, was attended by many members of the American society in London. Lord Rosebery, who presided, referred to the American guests as "representing a great commonwealth of states, once part of the British empire, but now nearer than any country except the colonies."

Colonel Taylor of the society, in responding for the Americans, paid a tribute to the queen and read cablegrams that had been exchanged with the citizens of Tampa, Fla.

His speech brought out a further response from Lord Rosebery, after which the orchestra played "Hail Columbia" amid a lively demonstration.

Neal Courtmartial.

San Francisco, May 25.—The findings of the courtmartial which tried Captain John M. Neal, Fourth cavalry, at Presidio, after having remained in the hands of General Shafter for two weeks, have been sent to Washington for final decisions by the secretary of war. General Shafter will not reveal what the findings of the court are, and its members are under oath of secrecy, but it is generally understood that the court decided for dismissal.

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

THURSDAY, MAY 25, 1899.

GOVERNOR MOUNT'S out-spoken opposition to trusts is in line with the convictions of the republican party, the party that has accomplished more for the people than all other parties combined.

THE free silver clubs of the Ohio valley are to have a meeting at Louisville, May 31, and June 1, 2. Bryan they say, will be there and G. Fred Williams and J. Peter Altgeld. If the 16 to 1 club of Seymour wants to go let them send a dollar to Allen W. Clark at Greensburg and get their names on the roll. They have planned two banquets; we suppose one puts plates on the market at a dollar, and the other at ten dollars each, so as to satisfy all kinds of Jeffersonian democrats. It is to be big meetin' for the railroads have granted reduced rates to the brethren.

MADISON is laying plans to locate a large tobacco factory, which when completed will work from 1,000 to 2,000 hands. The greatest obstacle they have to confront is their high rate of taxation. One of the men back of the company stated to the Madison Courier that he saw many favorable conditions at Madison for such a factory, but that the rate of taxation was so high that a factory with a large capital could not pay it. The question of taxation is always carefully looked into by men who are seeking a permanent location for a good busines and therefore should be kept as low as possible. The tax rate is high too frequently because money is wasted, and because officials do not guard the people's business with the same degree of economy as their own. Then they frequently undertake to do too much at one time, and make a debt too great for the municipality to carry easily. It is a great advantage or a city to have a low tax rate, such as Madison would like to have now.

THE PANTS FACTORY

Will be Run by Home People on the Co-operative Plan.

The Commercial club was called in special session last night to consider a proposition relative to the Pants Factory reorganization. As announced some time ago it is the purpose of Mr. Strauss to retire from the manufacturing business, since he needs the room now occupied by this factory for his wholesale and retail business, to which he desires to give his exclusive attention.

The Pants Factory has always done a paying business and sustains a large number of employes the year round It is a valuable industry and will be kept in operation here in another building though several other places would like to have it.

The plan proposed to the Commercial Club comes from F. V. Smith, Roscoe England, N. Nassoy, Frank Hoppel, and A. Jeggi, who for years have been employes of the Pants Factory. They propose to organize a company, secure a building and run the factory on the co-operative and profit-sharing plan. They have raised among themselves and those immediately back of them all but $1,500 of the capital they need to successfully start the business. This amount can be secured without much difficulty.

The Commercial Club is asked to secure a building in which to carry on the business which will doubtless be done.

The plan proposed for the operation of this plant is a feasible one and is so regarded by nearly every one who has given it any thought. The contracts now in sight for the plant insure plenty of work for a long time.

Many old soldiers now feel the effects of the hard service they endured during the war. Mr. Geo. S. Anderson, of Rossville, York county, Penn., who saw the hardest kind of service at the front, is now frequently troubled with rheumatism. "I had a severe attack lately," he says, "and procured a bottle of Chamberlain's Pain Balm. It did so much good that I would like to know what you would charge me for one dozen bottles." Mr. Anderson wanted it both for his own use and to supply it to his friends and neighbors, as every family should have a bottle of it in their home, not only for rheumatism, but lame back, sprains, swellings, cuts bruises, and burns, for which, for which it is unequalled. APPELLATE COURT

Refuses to Send Barrett Law Cases to the Supreme Tribunal.

THE DAY OF TRIAL IS SET

For Indicted Hancock County Officials—Indiana Masonic Grand Lodge Officers—Fall of a Meteor Near Middletown—Both Were Badly Burned. Pensions to Veterans.

Indianapolis, May 25.—The "Barrett law cases" were affirmed by the appellate court yesterday. These cases were, respectively, entitled Helen N. Lewis vs. George M. Albertson, Kate N. Willard vs. George M. Albertson and James H. Willard vs. George M. Albertson. They were from appeals foreclosing assessment liens for the improvement of a street in the city of Bedford. The amounts for which judgments were recovered were small, but appeals were taken to the supreme court. Elaborate briefs were filed in that court, but the constitutionality of the law under which the improvements were made was not questioned.

The supreme court transferred the cases to the appellate court, and an effort was then made to have them returned to the supreme court in order that the constitutionality of the law might be decided upon. This the appellate court denied, on the ground that the question of constitutionality was not raised when the appeal was before the supreme tribunal and hence must be considered as having been waived.

Pretty Children

"We have three children. Before the birth of the last one my wife used four bottles of MOTHER'S FRIEND. If you had the pictures of our children, you could see at a glance that the last one is healthiest, prettiest and finest-looking of them all. My wife thinks Mother's Friend is the greatest and grandest remedy in the world for expectant mothers."—Written by a Kentucky Attorney-at-Law.

MOTHER'S FRIEND prevents nine-tenths of the suffering incident to childbirth. The coming mother's disposition and temper remain unruffled throughout the ordeal, because this relaxing, penetrating liniment relieves the usual distress. A good-natured mother is pretty sure to have a good-natured child. The patient is kept in a strong, healthy condition, which the child also inherits. Mother's Friend takes a wife through the crisis quickly and almost painlessly. It assists in her rapid recovery, and wards off the dangers that so often follow delivery.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves bright eyes, smooth, velvety skin, rich complexion. It will make a good looking, charming woman of a run-down invalid. Only 50 cents at W. F. Peter' rug store.

I have been a sufferer from chronic diarrhoea ever since the war and have used all kinds of medicines for it. At last I found one remedy that has been a success as a cure, and that is Chamberlain's Colic, Cholera and Diarrhoea Remedy.—P. E. GRISHAM, Gaars Mills, La. For sale by C. W. Milhous.

Payn's Fearful Writing.

James Payn's chirography is something fearful to contemplate. It is simply execrable. The Academy tells a nice story about Payn's "bewildering handwriting." Miss Jane Barlow sent a poem as a first contribution to The Cornhill when Payn was its editor. Think of the lady receiving a brief line which she interpreted as follows: "I have no use for silly verses."

Of course Miss Barlow indulged in copious tears. There never was such an ill mannered snub. Then she commenced to study the scrawl. Now came a gleam of light, for she dimly made out what it really was. "I hope to use your pretty verses."

Alas, when you are, as a poet, "declined with thanks," there is today no possibility of error, for the fatal missive is always typewritten.

His Life was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typheid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and nam well and strong. I can't say too much in its praise." No Griping or Pains.

Sensitive Clocks.

A Lewiston (Me.) merchant has in his store an old fashioned clock which is peculiarly sensitive. It sometimes stops, and if any one steps into the store or goes by it will start again, and if a horse steps on a certain spot in the street it will start.

A man who happened to notice it and who had one like it himself said that his would not run after he had started his furnace in the fall. In the spring, after he ceased to keep a fire, it would run all right.

Great Lovers of Water.

The Siamese are more devoted to the water than any other nation in the world. They are nearly always bathing, generally with their clothes on, and they never go anywhere by land if they can possibly go by water. The streets of Bangkok are like those of Venice, and the inhabitants say that their idea of paradise would be a town with canals where there were currents in both directions, so that they might be spared the effort of rowing.

Grip makes one sick, weary and restless. Dr. Miles' Restorative Nervine brings rest.

Thousands Have Kidney Trouble and Don't Know It

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to a[illegible]e the kidney poison in the blood [illegible] attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble. Kidney trouble can be detected although it be slow and deceptive. First, by analysis of the urine; second, by the simple test of setting the urine aside in [illegible] bottle for twenty-four hours [illegible] cloudy or brick dust settling indicates it.

It was for just such troubles that in His infinite power and goodness the Great Physician caused Swamp Root to grow for the benefit of suffering mankind, leaving it for His servant Dr. Kilmer, the great kidney and bladder specialist to discover it and make it known to the world. Its wonderful efficacy in promptly curing the most distressing cases is truly marvelous. You may have a sample bottle of Dr. Kilmer's Swamp-Root the great kidney, liver and bladder remedy, by mail free.

Spanish-American War Panorama.

Is one of the war books which is likely to be in continuous demand. It is a panoramic record of the triumph of Yankee Doodle. The eagle flaps his wings on every page, and "Old Glory" waves around and above every scene. Prominent officers connected with the war are here protrayed, as well as many of the "men behind the guns." Military life is pictured to the eye from recruiting to guard mount and skirmish line. Nor is the ludicrous omitted. The company cook receives the attention due to his importance the mess is shown; cavalry scenes are given; the hospital arrangements are depicted; the heroines of the Red Cross service are displayed; street scenes in Havanna, Santiago and elsewhere are unrolled, the new citizens or subjects (which are they?) of Uncle Sam, appear and disappear as the leaves are turned.

In a word, the gazer visits the new localities and sees the tumultuous new life, without the risk or expense of a sea voyage.

HIS HEALTH IS GOOD

Surgeon Page, Late of the Olympia, Talks of Dewey's Condition.

NOT A PHYSICAL WRECK

No Appreciable Change In His Appearance, Weight or General Condition Since Going to Manila—Has Not Had a Prescription In a Year. Carries Responsibility Lightly.

Washington, May 25.—Surgeon J. E. Page, of Admiral Dewey's flagship, the Olympia, has arrived here on leave. He came ahead of the Olympia to avoid long delays of the sail via the Suez canal. Surgeon Page has been on the flagship ever since Dewey took command, seeing him daily and having general charge of medical affairs, so that he is in a position to give an intelligent view of the admiral's health and general condition. He said:

"Admiral Dewey is in no sense a sick man, but is as well as any man could be after spending a year in the tropics. I was on the Olympia at the time he came aboard, and from that time to the present I do not believe there has been any appreciable change in his appearance, weight or general condition. Any one who thinks he is a physical wreck should hear the admiral on the quarterdeck when he gets aroused. He is the gentlest man living, and yet he expects every man to do his exact duty, and when there is any shortcoming the admiral will be heard from in no feeble or sickly manner.

"Of course every one in the fleet has suffered in health more or less during the last year, owing to the terrific and long sustained heat and the enervating climate. It takes all the life out of a strong man and undoes his energy and ambition. In that way Dewey suffered with all the rest of us. It was particularly arduous during blockade duty, when for long stretches no man could get ashore."

Surgeon Page was asked if Admiral Dewey's responsibilities had not weighed heavily on him.

"I think not," he answered, "and I believe it will be found that he has just as much nerve as the morning he fought the battle of Manila bay. He is a man who carries responsibility lightly, and does not let it break him down. On the morning of the battle he was perfectly cool, and only once throughout the action did he show any signs of anxiety. That was when the head gunner reported that our ammunition was running short. This was about the time when we pulled off for breakfast, and it had a rather depressing effect. But it was quickly offset when the officer of the deck reported that the Reina Christina and Castalia were afire. That was the turning point, and the admiral had no anxiety after that."

Asked if he had prescribed for Dewey of late, Surgeon Page said:

"No; he has no need for prescriptions. During the last year he has not once asked for a prescription or taken medical advice, except in a casual way. If he wants anything he sends down to the ship's apothecary and gets it. His habits are so regular that he needs little or no medicine. His smoking and drinking are in perfect moderation. He eats well and sleeps well, and it is one of the recognized offences on board ship to tramp heavily over the admiral's cabin after he has retired.

"It has needed a pretty calm man at the head of affairs," said Surgeon Page, when asked as to the reports of friction with the German naval officers. "I know nothing of any differences, but we all felt that much reliance was to be placed on the admiral's tact and conservatism as a means of avoiding any possible difference. Throughout the fleet he was admired universally, not only as a naval commander, but for his statesmanship and discretion."

THE RIENA MERCEDES.

Norfolk People Apprehensive of Fever From the Spanish Cruiser.

Washington, May 25.—The navy department is making ready to receive the captured and raised Spanish cruiser Reina Mercedes at the Norfolk navyyard, if it can succeed in allaying the apprehensions of the people of Norfolk as to the safety of the movement. Surgeon General Van Reypen has given the matter his personal attention, and, recalling the fact that the Mercedes has been under water since early last July; that there never was fever aboard of her, and, finally, that there is no fever at Santiago, whence she came, he recommended to Assistant Secretary Allen, who is directly in charge of the repairs of ships, that the original plan be carried out and that the Mercedes be brought to the Norfolk navyyard. Surgeon General Wyman of the marine hospital service was first consulted by Surgeon General Van Reypen, inasmuch as he is in charge of the national quarantine service at Norfolk, and he declared that there would be no danger in adopting this course, particularly as he would undertake to have the Mercedes thoroughly disinfected and cleansed.

The Peace Jubilee.

Washington, May 25.—The feature of the second day of the national peace jubilee celebration in this city was the civic parade yesterday afternoon. It consisted of all the fraternal, civil and trade organizations of the city, together with a long procession of floats. The parade passed through the court of honor, where President McKinley, his cabinet and a distinguished company reviewed it from a stand in front of the white house grounds. There was much merriment and enthusiasm, and the parade was a distinct success.

CHOLERA SCOURGE

An Awful Death Rate at Karachi, India.

Bombay, May 25.—Cholera is raging in Karachi, the principal seaport town of Singe. Two hundred and thirty-two new cases were reported yesterday and 208 deaths for the day. The official returns show a total of 1,197 cases and 1,099 deaths since the beginning of the outbreak.

Karachi, or Kurrachoo, is on an inlet of the Indian ocean, 18 miles from the west branch of the Indus. The town was taken by the British in 1839 and was retained as a military post. According to the census of 1891 its population is about 100,000. A railway extends from Karachi to Hyderabad. Of late years the town has been rebuilt and greatly improved, and is now one of the chief seaports of India.

SCHLEY MOVES ON

Leaves Omaha For Denver and Salt Lake Over the Burlington.

Omaha, May 25.—Rear Admiral W. S. Schley's visit to Omaha ended yesterday when, in company with Mrs. Schley and General and Mrs. Manderson, he boarded a Burlington train for a trip to Denver and Salt Lake. When the party arrived at the station an immense crowd was present to catch a last glimpse of the naval hero.

As the train passed the central entrance to the depot the Sixteenth infantry band struck up "The Stars and Stripes Forever." Off came the admiral's hat with a swing, and the boys in blue waved their farewell with that of the admiring throng as the train pulled out.

To Welcome Dewey.

Washington, May 25.—Preliminary steps have been taken by the Washington board of trade for a welcome to Admiral Dewey on his return to this city. The district commissioners have been requested to appoint a committee of citizens to take charge of the matter and also to represent the district in all questions pertaining to the reception of the admiral on his return to this country and to the capital. The board also indorsed the movement to present to Admiral Dewey a suitable permanent home in this city.

Spanish Finances.

Madrid, May 20.—The Reforma declares that the minister of finance, Senor Villaverde, who is supported by the entire cabinet, maintains the royal order instructing the Bank of Spain to suspend indefinitely the quarterly drawing of the redeemable 4 per cent debt. The bank owns £15,000,000 out of £61,000,000 of this stock; and the order means that the treasury will gain £2,000,000.

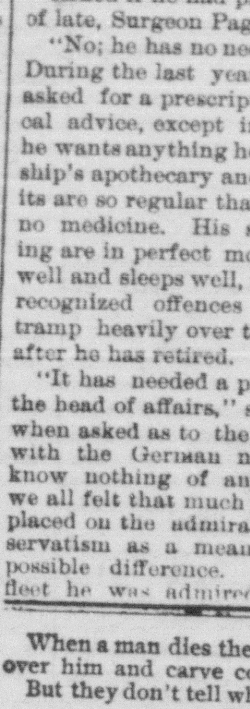
When a man dies they put a tombstone over him and carve compliments on it. But they don't tell what killed him. If they did you could go into any cemetery and find on one stone in every six the words—"consumption," "pneumonia," "diseased lungs." And if the truth were all told most of them would say also—"due to carelessness." More men die of consumption than are killed in battle. Consumption is more deadly than rattlesnakes, and yet men run from the snake, and invite consumption.



The time to cure consumption is before it starts. A "little cough" is easy to cure. Weak lungs may be made strong before disease gets in.

My eldest son was taken, two or three years ago, with hemorrhage from the lungs. It troubled him for over a year. He took Dr. Pierce's Golden Medical Discovery and has not had a bleeding from the lungs in over a year. Your medicine certainly saved his life."

DOINGS AT HAVANA

General Sanchez Notifes Gomez That His Division Will Not Accept the Money.

SHIPS GAILY DECORATED

In Honor of Queen Victoria's Birthday — An American Arrested For Selling Government Property — Havana Merchants Call on Collector Bliss.

Havana, May 25.—Great interest is felt here in shipping circles with regard to the question of coasting flags. The daily papers are eagerly scanned for news from Washington touching the subject.

General Maximo Gomez has received a telegram from General Sanchez in Santiago province, saying: "Division will not accept money." He has replied: "Will use every effort compatible with dignity and honor." The Havana papers consider this answer evasive, and the Cubans generally, especially those belonging to the fighting divisions, which are chiefly westerners, say that most of the soldiers will accept the money as $75 a piece is better than nothing.

Probably there will be a large attendance on the first payment, as well as upon those that follow. A member of the staff of Gomez said yesterday that not more than 20 per cent would refuse when the money was actually in sight.

Havana yesterday was alive with flags in honor of the queen's birthday and all the ships in the harbor were gaily decorated. The banquet last night at the Hotel Inglaterra was attended by 80 representative people and passed off with great enthusiasm. Addresses were made by Governor General Brooke, Major General Ludlow, Senor Frederico Mora, supreme court fiscal; Senor Perfecto, the mayor, and others.

Cox, an American civilian, foreman of department of streets, has been arrested on a charge of selling government property for his personal benefit. One of his assistants has admitted receiving $10 as his share of the proceeds of a sale of lumber that brought $75. Other similar deals are suspected, though there is as yet no confirmatory evidence.

A committee of Havana merchants called upon Collector Bliss to inform him that they would not receive freight under the present system, as it was slow and costly. He explained that the rush of imports and exports, occurring at the same time with the remodeling of the customhouse, rendered any radical change impracticable at present. The merchants asked for 24 hours to consider his reply, and the collector said he would give them five minutes. At the expiration of that time they accepted the situation.

Major General Fitzhugh Lee will deliver the Decoration day address over the remains of those who died and are buried at Camp Columbia. The victims of the Maine disaster will receive appropriate memorial honors in the morning, and the Seventh corps ceremony will take place during the afternoon.

REV. HOLMES' GIFT

Presents the Presbyterian General Assembly With $1,000.

Minneapolis, May 25.—Rev. Meed Holmes of Rockford, Ills., aged and bent, climbed upon the tribune of the Presbyterian general assembly yesterday afternoon and extracted from a worn little pocketbook a draft for $1,000 on the Chemical National bank of New York. Rents were terribly low, he said, and money was hard to get, but for the freedmens' cause he would give that draft provided all stood by their pledges and promises, and the more than $40,000 promised was actually delivered. Then while the assembly applauded loudly the gray beard painfully clambored down. Dr. Charles Herr presented the amended report of the Freedmens' committee as to lynch law outrages in the south. The lurid language of the other day, which caused some excitement, gives place to this harmless paragraph:

"It (the Freedmens) is a cause that appeals to us with particular insistence at this time because of the development of mob spirit in our Christian land. We join heartily with our fellow citizens and fellow Christians of all sections in their horror of those dreadful manifestations and we believe it is an hour for our church to pledge herself afresh, in sacrafice and service to the redemption of the negro from his sufferings and his sins."

Fell Dead In a Hotel.

New York, May 25.—Colonel E. W. Cole of Nashville, Tenn., died suddenly last night in the corridor of the Fifth Avenue hotel, of which he was a guest. Colonel Cole arrived at the hotel Tuesday. He was walking through the hotel corridor last night when he gave a sudden gasp and fell to the marble floor, his head striking heavily. All efforts to revive him were fruitless, and he died in about an hour. The hotel physician thought death was due to apoplexy.

ROYAL BAKING POWDER CO., NEW YORK.

EXILED AT THIRTEEN

Native of Colombia Returning to Claim a Portion of an Estate.

San Francisco, May 25.—Among the passengers of the steamer Australia yesterday, from Honolulu, was A. A. Montano, proprietor of a large dairy in the Manao valley, who is on his way to his old home in the United States of Colombia, after 35 years, to recover an estate left by his father. The story of his early life and his banishment from the country reads like one of Mayne Reid's romances.

Thirty-five years ago Montana was a boy of 13 in Colombia. A rebellion was started and young Montano was engaged to lead the insurgents against a fortress that commanded the capital. He guided them by a secret path at night and then himself crawled through a small hole in the wall, followed by the men, one at a time. At 4 o'clock in the morning the revolutionists, fully armed, descended on the populace in the market place and put to death all the men they could find. Then they left the town. The next day they captured a neighboring city, young Montano again leading them.

The government, however, rallied its forces and defeated the rebels. The ringleaders were shot, but out of consideration for Montano's youth he was taken to the coast and banished. This was in 1864. He then went to Hawaii, where he has lived ever since.

In Colombia he left nine brothers and two sisters. His father's estate was large and was not confiscated, so he returns now to get his share. He carries letters from President Dole showing he is a citizen of Hawaii, and will call at Washington to get papers showing he is an American citizen.

Eubanks, chief clerk in the office of the auditor of public accounts, has made a compilation of the appropriation bills passed by the Forty-first assembly, which shows the total amount appropriated for the two years beginning July 1 to be $12,557,655.27, classified as follows: Courts, $93,341.33; University of Illinois and state normal schools, $1,134,424.68; charitable institutions, $4,418,461.12; state government, commissions, etc., $2,056,872; penal and reformatory institutions, $1,085,600; agriculture and horticulture, $206,186.70; libraries, $21,480; Lincoln homestead and monument, $106,700; military, $1,027,898.02; school fund, $2,114,000; special appropriations to pay award of commission of claim, $34,391.72; miscellaneous, $258,300. Total, $12,557,655.57.

By the terms of the bills passed $7,956,775.71 is payable during the first year and the remainder, $4,600,870.86 is payable the second year.

DESTITUTION

Prevails In Many Sections Along the Northeast Coast of Newfoundland.

St. John, N. F., May 25.—The northeast coast of this island has been blocked with ice for the last six weeks, the result being that navigation along the coast has been practically impossible. The people in many sections are now destitute of provisions, owing to the inability to replace their supplies, and the commercial operations of almost 80,000 people have been virtually suspended. Fishery outfitting for Labrador and the offshore fishing grounds will be quite out of the question until the ice blockade is raised.

The mail steamer Virginia Lake, which attempted to proceed north, failed to force her way through the floes and was compelled to return to this port. Fishing vessels from St. Johns, bound for Labrador, have to skirt around the south coast of the island and to work out through the straits of Belle Isle.

WIRE FENCE

Manufacturers Meeting In Chicago. Discord Among the Delegates.

Chicago, May 25.—Manufacturers of wire fencing and machines for the manufacture of wire fencing met at the Great Northern hotel yesterday. E. F. Shellabarger of Dekalb, Ills., presided over the meeting. About 30 representatives of as many firms, covering the states of New York, Iowa, Kansas, Nebraska and Illinois were admitted to the conference. From the start the delegates found discord in their meeting. The men who manufactured only the wire did not want to allow the men who manufactured the machines for manufacturing the wire to be taken in their confidence.

TO HANG

Fifteen-Year-Old Boy to Suffer the Death Penalty For Murder.

Whitby, Ont., May 25.—Howard Elliott, a 15-year-old boy, has been sentenced by Judge McMahon at the assizes to be hanged on Thursday, Aug. 17, for the murder of William Murray of Beaverton. The victim, who was 80 years old, lived alone and was beaten to death with a club. The object was robbery. When sentence was pronounced the prisoner showed the same indifference which has characterized his actions since his arrest.

BALTIMORE SALOONS

Said That Five Hundred Will Quit In the Near Future.

Baltimore, May 25.—Five hundred saloons of Baltimore, it is estimated, will quit the business. Some of them have already closed their doors and others will follow. The cause of the great shutdown is the determination of the Maryland Brewing company, which controls nearly nine-tenths of the output of the city, to abandon the practice of paying for saloon licenses in order to force their product on the market. Last year, on May 17, applications for license filed with the board of liquor license commissioners numbered 2,451. On the same date this year only 2,291 applications have been filed, a falling off of 160. The decrease in applications indicates what the extent of the general shutdown in the saloon business will be, as it is believed that at least one-fifth of those who have already applied will not buy them.

QUEEN'S BIRTHDAY

Banquet Given Last Night at Which Lord Rosebery Presided.

London, May 25.—The birthday banquet given at the hotel Cecil last night in honor of the queen's birthday, was attended by many members of the American society in London. Lord Rosebery, who presided, referred to the American guests as "representing a great commonwealth of states, once part of the British empire, but now nearer than any country except the colonies."

Colonel Taylor of the society, in responding for the Americans, paid a tribute to the queen and read cablegrams that had been exchanged with the citizens of Tampa, Fla.

His speech brought out a further response from Lord Rosebery, after which the orchestra played "Hail Columbia" amid a lively demonstration.

Neal Courtmartial.

San Francisco, May 25.—The findings of the courtmartial which tried Captain John M. Neal, Fourth cavalry, at Presidio, after having remained in the hands of General Shafter for two weeks, have been sent to Washington for final decisions by the secretary of war. General Shafter will not reveal what the findings of the court are, and its members are under oath of secrecy, but it is generally understood that the court decided for dismissal.

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

THURSDAY, MAY 25, 1899.

GOVERNOR MOUNT's out-spoken opposition to trusts is in line with the convictions of the republican party, the party that has accomplished more for the people than all other parties combined.

THE free silver clubs of the Ohio valley are to have a meeting at Louisville, May 31, and June 1, 2. Bryan they say, will be there and G. Fred Williams and J. Peter Altgeld. If the 16 to 1 club of Seymour wants to go let them send a dollar to Allen W. Clark at Greensburg and get their names on the roll. They have planned two banquets; we suppose one puts plates on the market at a dollar, and the other at ten dollars each, so as to satisfy all kinds of Jeffersonian democrats. It is to be big meetin' for the railroads have granted reduced rates to the brethren.

MADISON is laying plans to locate a large tobacco factory, which when completed will work from 1,000 to 2,000 hands. The greatest obstacle they have to confront is their high rate of taxation. One of the men back of the company stated to the Madison Courier that he saw many favorable conditions at Madison for such a factory, but that the rate of taxation was so high that a factory with a large capital could not pay it. The question of taxation is always carefully looked into by men who are seeking a permanent location for a good busines and therefore should be kept as low as possible. The tax rate is high too frequently because money is wasted, and because officials do not guard the people's business with the same degree of economy as their own. Then they frequently undertake to do too much at one time, and make a debt too great for the municipality to carry easily. It is a great advantage or a city to have a low tax rate, such as Madison would like to have now.

THE PANTS FACTORY

Will be Run by Home People on the Co-operative Plan.

The Commercial club was called in special session last night to consider a proposition relative to the Pants Factory reorganization. As announced some time ago it is the purpose of Mr. Strauss to retire from the manufacturing business, since he needs the room now occupied by this factory for his wholesale and retail business, to which he desires to give his exclusive attention.

The Pants Factory has always done a paying business and sustains a large number of employes the year round. It is a valuable industry and will be kept in operation here in another building though several other places would like to have it.

The plan proposed to the Commercial Club comes from F. V. Smith, Roscoe England, N. Nassoy, Frank Hoppel, and A. Jeggi, who for years have been employes of the Pants Factory. They propose to organize a company, secure a building and run the factory on the co-operative and profit-sharing plan. They have raised among themselves and those immediately back of them all but $1,500 of the capital they need to successfully start the business. This amount can be secured without much difficulty.

The Commercial Club is asked to secure a building in which to carry on the business which will doubtless be done.

The plan proposed for the operation of this plant is a feasible one and is so regarded by nearly every one who has given it any thought. The contracts now in sight for the plant insure plenty of work for a long time.

Many old soldiers now feel the effects of the hard service they endured during the war. Mr. Geo. S. Anderson, of Rossville, York county, Penn., who saw the hardest kind of service at the front, is now frequently troubled with rheumatism. "I had a severe attack lately," he says, "and procured a bottle of Chamberlain's Pain Balm. It did so much good that I would like to know what you would charge me for one dozen bottles" Mr. Anderson wanted it both for his own use and to supply it to his friends and neighbors, as every family should have a bottle of it in their home, not only for rheumatism, but lame back, sprains, swellings, cuts bruises, and burns, for which, for which it is unequalled. APPELLATE COURT

Refuses to Send Barrett Law Cases to the Supreme Tribunal.

THE DAY OF TRIAL IS SET

For Indicted Hancock County Officials—Indiana Masonic Grand Lodge Officers—Fall of a Meteor Near Middletown—Both Were Badly Burned. Pensions to Veterans.

Indianapolis, May 25.—The "Barrett law cases" were affirmed by the appellate court yesterday. These cases were, respectively, entitled Helen N. Lewis vs. George M. Albertson, Kate N. Willard vs. George M. Albertson and James H. Willard vs. George M. Albertson. They were from appeals foreclosing assessment liens for the improvement of a street in the city of Bedford. The amounts for which judgments were recovered were small, but appeals were taken to the supreme court. Elaborate briefs were filed in that court, but the constitutionality of the law under which the improvements were made was not questioned.

The supreme court transferred the cases to the appellate court, and an effort was then made to have them returned to the supreme court in order that the constitutionality of the law might be decided upon. This the appellate court denied, on the ground that the question of constitutionality was not raised when the appeal was before the supreme tribunal and hence must be considered as having been waived.

Pretty Children

"We have three children. Before the birth of the last one my wife used four bottles of MOTHER'S FRIEND. If you had the pictures of our children, you could see at a glance that the last one is healthiest, prettiest and finest-looking of them all. My wife thinks Mother's Friend is the greatest and grandest remedy in the world for expectant mothers."—Written by a Kentucky Attorney-at-Law.

MOTHER'S FRIEND prevents nine-tenths of the suffering incident to childbirth. The coming mother's disposition and temper remain unruffled throughout the ordeal, because this relaxing, penetrating liniment relieves the usual distress. A good-natured mother is pretty sure to have a good-natured child. The patient is kept in a strong, healthy condition, which the child also inherits. Mother's Friend takes a wife through the crisis quickly and almost painlessly. It assists in her rapid recovery, and wards off the dangers that so often follow delivery.

I have been a sufferer from chronic diarrhoea ever since the war and have used all kinds of medicines for it. At last I found one remedy that has been a success as a cure, and that is Chamberlain's Colic, Cholera and Diarrhoea Remedy.—P. E. GRISHAM, Gaars Mills, La. For sale by C. W. Milhous.

Payn's Fearful Writing.

James Payn's chirography is something fearful to contemplate. It is simply execrable. The Academy tells a nice story about Payn's "bewildering handwriting." Miss Jane Barlow sent a poem as a first contribution to The Cornhill when Payn was its editor. Think of the lady receiving a brief line which she interpreted as follows: "I have no use for silly verses."

Of course Miss Barlow indulged in copious tears. There never was such an ill mannered snub. Then she commenced to study the scrawl. Now came a gleam of light, for she dimly made out what it really was. "I hope to use your pretty verses."

Alas, when you are, as a poet, "declined with thanks," there is today no possibility of error, for the fatal missive is always typewritten.

His Life was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typheid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. No Griping or Pains.

Arrowsmith, Ill., Jan. 21, 1897.

Sensitive Clocks.

A Lewiston (Me.) merchant has in his store an old fashioned clock which is peculiarly sensitive. It sometimes stops, and if any one steps into the store or goes by it will start again, and if a horse steps on a certain spot in the street it will start.

A man who happened to notice it and who had one like it himself said that his would not run after he had started his furnace in the fall. In the spring, after he ceased to keep a fire, it would run all right.

Great Lovers of Water.

The Siamese are more devoted to the water than any other nation in the world. They are nearly always bathing, generally with their clothes on, and they never go anywhere by land if they can possibly go by water. The streets of Bangkok are like those of Venice, and the inhabitants say that their idea of paradise would be a town with canals where there were currents in both directions, so that they might be spared the effort of rowing.

Grip makes one sick, weary and restless. Dr. Miles' Restorative Nervine brings rest.

Thousands Have Kidney Trouble and Don't Know It

There is a disease prevailing in blai country most dangerous becausesoit deceptive. Many sudden deaths res caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to a e the s kidney poison in the blood d cable ty attack the vital organs, or tsvakidney themselves break down and wes,te awa cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble. Kidney trouble can be detected although it be slow and deceptive. First, by analysis of the urine; second, by the simple hst of setting the urine aside in [illegible] bottle for twenty-four hours [illegible] a cloudy or brick dust settling dicates it.

Spanish-American War Panorama.

Is one of the war books which is likely to be in continuous demand. It is a panoramic record of the triumph of Yankee Doodle. The eagle flaps his wings on every page, and "Old Glory" waves around and above every scene. Prominent officers connected with the war are here protrayed, as well as many of the "men behind the guns." Military life is pictured to the eye from recruiting to guard mount and skirmish line. Nor is the ludicrous omitted. The company cook receives the attention due to his importance the mess is shown; cavalry scenes are given; the hospital arrangements are depicted; the heroines of the Red Cross service are displayed; street scenes in Havanna, Santiago and elsewhere are unrolled, the new citizens or subjects (which are they?) of Uncle Sam, appear and disappear as the leaves are turned.

In a word, the gazer visits the new localities and sees the tumultuous new life, without the risk or expense of a sea voyage.

Grain-O Brings Relief.

It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be othe
